# MESSAGE FROM THE PRESIDENT MALAYSIAN SOCIETY OF TRANSPLANTATION

It is with great pleasure, I welcome you to the 10<sup>th</sup> Scientific Meeting of the Malaysian Society of Transplantation.

The Scientific Meeting of the Malaysian Society of Transplantation is the premier educational event providing a diverse, yet comprehensive overview of important, cutting-edge scientific information in the field of clinical transplantation to cater to the needs of clinicians and paramedical professionals alike.

The theme for this year's scientific meeting is "Back to Basics of Transplantation". The program has been laid out in such a manner so as to provide ample time for us to review the progress we have made in organ donation & transplantation over the years and to learn from our shortcomings. It is hoped that such intellectual discussions will pave the way for us to move forward towards our goal of improving organ donation & transplantation in Malaysia.

The venue of this year's scientific meeting, Holiday Inn Resort, Glenmarie, set within a serene & tranquil environment, with lots of greenery will hopefully provide a healthy and conducive environment not only for the meeting but also for rest & recreation, away from the distractions of Kuala Lumpur.

"ORGAN DONATION IS A GIFT OF LIFE". You could help us by conveying this message of organ donation to your family and friends.

**Mr. Harjit Singh**  
President  
Malaysian Society of Transplantation
